Hi Margaret

I think there was some confusion about the # and sequence of waivers we need to send

Preye Okah (Google) 2021-09-22T15:54:26.233Z

I think where we are landing is that Pixel waivers need to be sent first, so even though Pixel is launching on A12, the waivers will be compared against the current RSA terms (which are based on Android 11)

The Android 12 updates will then be made separately once they are finalized

That sounds like the right cadencing to me

If possible, do you mind turning History off? Would not like to have a trail of us talking about waivers, etc. Thanks!

Preye Okah (Google) 2021-09-22T15:55:54.977Z

Okay, thank you

+1 to the sequencing of the waivers

Preye Okah (Google) 2021-09-22T15:57:17.714Z

Okay, thanks both. I'll follow up by email then
